Looks correct. And I believe you also have my email regarding the qualifications for a security guard card. Mike

Mike,

I wanted to confirm with you my understanding of our conversation on November 7th related to the email message you sent Carol Dye on November 7th (see below).

Based on our conversation, the email you sent to Ms. Dye addresses the criminal records search completed when a person applies for a fingerprint clearance card or when a charter school submits a person's fingerprints under A.R.S. 15-512. The fingerprint clearance card that you refer to is the one issued to instructional personnel pursuant to A.R.S. 15-183.C.4. In your email, you state the criminal records search is exactly the same for both processes. The email to Ms. Dye does not address the criminal records search related to the security guard card.

If I have misrepresented our conversation or if there is other information that would further clarify the conversation, I would appreciate it if you would address that in your emailed response.

Thanks,
 Andrea

Hi Martha, Please find below a response from Mike Timmerman (DPS). He has verified the information regarding the clearance cards provided under the two sections. He stated to me that the search was "exactly the same". Please let me know if you have any questions. Thank you for your assistance.

Subject: Background Checks

The criminal records search that is done when a person applies for a fingerprint clearance card or when a charter school submits the person's fingerprints under section 15-512 is exactly the same for both processes. Both involve a search of the state criminal record and sex offender databases and both get a national criminal records check run by the FBI.

The major difference in the two processes is who makes the eligibility determination. If a person applies for a fingerprint clearance card, DPS makes the decision whether or not to issue the card. If the charter school submits the fingerprints under section 15-512, the results of both the state and FBI criminal record searches are provided to the charter school and the school makes the eligibility determination.
